ABDOMEN, PELVIC & SPINE SUPPORT

AD-101

Abdominal Belt

Our abdominal belt is perfect for postoperative conditions of the abdomen and post-delivery umbilical and ventral hernias.

Indications:

- Postoperative conditions of the abdomen.
- Post-delivery umbilical and ventral hernia.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the navel

AD-107

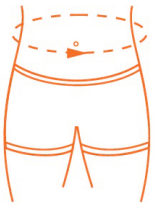

Tummy Trimmer

Optimal compression of our Tummy Trimmer binds surgicals incisions and helps heal abdomen and chest.

Indications:

- Postural deformity.
- Osteoporosis of the spine.
- Postoperative care of the spine.
- Mild thoraces and lumbar injuries.
- Degenerative Disc Disease
- Herniated Disc or PIVD.

Size	Inches	Cm
S	28-32	70-80
M	32-36	80-90
L	36-40	90-100
XL	40-44	100-110
XXL	44-48	110-120
XXXL	48-52	120-130
XXXXL	52-56	130-140

*Measure circumference around the navel

AD-111

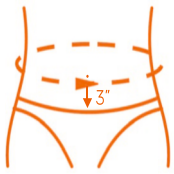

Maternity Belt

This maternity belt provides relief of hip and Pelvic pain through sufficient stretching and gentle compression to reduce bladder pressure and spread the baby's weight.

Indications:

- Postoperative conditions of the abdomen.
- Post-delivery umbilical and ventral hernia.

Size	Inches	Cm
S	32-38	81-97
M	38-44	97-112
L	44-50	112-127
XL	50-56	127-142
XLL	56-62	142-157

*Measure circumference 3' below the navel

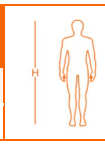

AD-108

Ash Brace (Hyper Extension Brace)

Our ash brace is aerodynamically shaped with telescoping, aluminium section, and malleable horizontal main body to form a cross bar.

Size	Size	Feet	Cm
Universal (Adjustable)	Short	5-6	152-183
	Long	Above 6	>183

*Measure height of the patient

Indications:

- Osteoporotic Bone Collapse.
- Ankylosing Spondylitis.
- Conservative management of Vertebral Bone Tuberculosis.
- Postoperative, post-traumatic, or chronic spinal pathology.
- Complications of thoracolumbar junction which needs moderate Immobilization.

AD-104

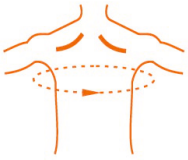

Rib Belt

Designed with a splinting pad in comfort, our rib belt is useful in aiding the healing process in rib fracture, relieving chest pain, and intercostal muscle strain.

Indications:

- Postoperative conditions of the abdomen.
- Post-delivery.
- Umbilical and ventral hernia.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the chest below underarms

AD-105

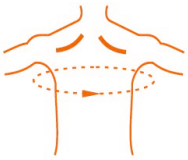

Chest Binder

Designed for comfort with an easy hook & loop closure, moisture-wicking fabric and splinting pad.

Indications:

- Post cardiothoracic surgeries.
- Fracture of the sternum.
- Pain due to chest injury.
- Rib fractures.
- Osteoporosis.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the chest below underarms

AD-102

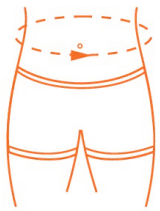

Lumbo Sacral Support

Our lumbo-sacral support is used to comfortably maintain correct posture and support the lower back while sitting, walking or driving.

Indications:

- Postoperative conditions of the abdomen.
- Post-delivery umbilical and ventral hernia.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the navel

AD-103

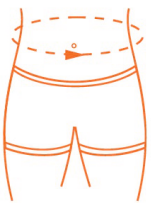

Contoured L.S. Support

This Contoured Lumbo-Sacral Support is ideal for postoperative care of lumbar spine and for lower back pain, strain or sprains.

Indications:

- Postoperative care of the lumbar spine.
- Low back pain.
- Low back sprains/strains.
- Lumbar disc injury.
- Degenerative Disc Disease.
- Herniated Disc or PIVD.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the navel

AD-106

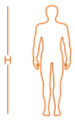

Dorso Lumbar Brace

Features anatomically contoured splints for precise immobilization and clavicle straps with cotton stockinet to correct shoulder posture alignment.

Indications:

- Postural deformity.
- Osteoporosis of the spine.
- Postoperative spine care.
- Mild lumbar and thoraces injury.
- Degenerative Disc Disease.
- Herniated Disc or PIVD.

Size	Inches	Cm
Short	4.6-5.6Ft.	140-171
Long	5.6-6.6Ft.	171-201

*Measure height of the patient

Size	Inches	Cm
Universal	28-44	71-112
Special	44-52	112-132

*Measure circumference around the navel

AD-109

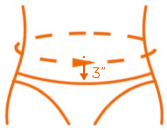

Hernia Belt

Designed for a comfortable and supportive fit our hernia belt is lightweight and features adjustable pelvic and leg straps.

Indications:

- Reducible inguinal or scrotal hernia.
- Post hernia repair surgery.
- Post-delivery umbilical and ventral hernia.
- Post abdominal hernia repair surgery.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130

*Measure circumference 3' below navel

AD-110

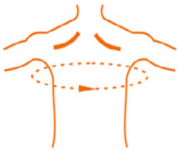

Posture Corrector

Designed to correct slouching and improve posture.

Indications:

- Back pain.
- Spine misalignment.
- Lumbar pain.
- Poor posture.

Size	Inches	Cm
CH	22-28	56-71
S	28-34	71-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130

*Measure circumference around the chest below underarms

AD-1103

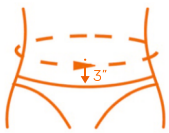

Scrotal Support

Fabricated extra-soft and hypoallergenic materials, our scrotal support is well-ventilated to allow for ease of use and extended wear comfort.

Indications:

- Palliative care.
- Treatment for postoperative care.
- Tenderness, pain or swelling in scrotal area.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130

*Measure circumference 3'' below navel

AD-801

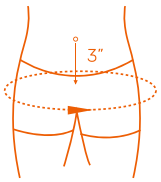

Pelvic Binder

Our Pelvic Binder is made with ruggedness for extended and repetitive uses.

Indications:

- Lumbar spondylitis.
- Lower back pain.
- Postural fatigue.
- Postural deformities.
- Vertebral fractures.
- Mechanical stress due to poor posture.

Size	Inches	Cm
S	32-38	80-95
M	38-44	95-110
L	44-50	110-125
XL	50-56	125-140

*Measure circumference 3" below navel

CERVICAL SUPPORT

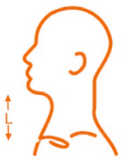

Cervical Collar Hard

Our hard Cervical Collar is made of high-quality polyethylene with padded edges moulded with Ethafoam.

Indications:

- Cervical Spondylitis.
- Cervical Disc Disease.
- Fracture of cervical spine.
- Whiplash injuries.

Size	Inches	Cm
S	3.0-3.5	7.5-8.75
M	3.5-4.0	8.75-10.00
L	4.0-4.5	10.00-11.25

*Measure distance between edge of sternum & lower jaw with neck in the extension position

AD-205

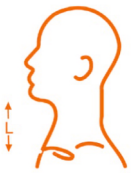

Cervical Collar Soft

Made of soft density foam for gentle and cushioned neck support.

Indications:

- Cervical Trauma.
- Neck Pain and Stiffness.
- Excessive Mobility.
- Rheumatoid Arthritis.
- Strain of Neck Muscles.
- Whiplash Recovery.
- Degenerative Disc Disease.

Size	Inches	Cm
S	3.0-3.5	7.5-8.75
M	3.5-4.0	8.75-10.00
L	4.0-4.5	10.00-11.25
XL	4.5-5.0	11.25-12.50

*Measure distance between edge of sternum & lower jaw with neck in the extension position

AD-202

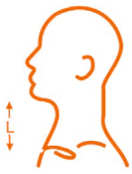

Cervical Collar Soft With Support

Made of firm density foam covered with a soft, smooth cotton stockinet splint inside for better neck support.

Indications:

- Cervical Trauma.
- Neck Pain and stiffness.
- Excessive mobility.
- Rheumatoid Arthritis.
- Strain of neck muscles.
- Whiplash recovery.
- Degenerative disc disease.

Size	Inches	Cm
S	3.0-3.5	7.5-8.75
M	3.5-4.0	8.75-10.00
L	4.0-4.5	10.00-11.25
XL	4.5-5.0	11.25-12.50

*Measure distance between edge of sternum & lower jaw with neck in the extension position

AD-201

Cervical Orthosis (Philadelphia Collar)

Made of Ethafoam material to padded support our Philadelphia Collar has a trachea opening in front.

Indications:

- Cervical trauma.
- Cervical sprain.
- Cervical Spondylitis.

Size	Inches	Cm
S	3.0-3.5	7.5-8.75
M	3.5-4.0	8.75-10
L	4.0-4.5	10.00-11.25
XL	4.5-5.0	11.25-12.50

*Measure distance between edge of sternum & lower jaw with neck in the extension position

AD-204

Cervical Pillow (Memory Foam)

Made of memory foam to provide proper support to the neck region while relaxing or sleeping.

Indications:

- Temporomandibular disorders.
- Cervical trauma.
- Morning hand stiffness and swelling.
- Whiplash injuries.
- Arthritis.
- Neck pain.

AD-203

Size	Inches	Cm
Universal	3.0-4.5	7.50-11.25

*Measure distance between edge of sternum & lower jaw with neck in the extension position

Cervical Pillow (Regular)

Provides sustained support to cervical vertebrae during sleep.

Indications:

- Temporomandibular disorders.
- Cervical trauma.
- Morning hand stiffness and swelling.
- Whiplash injuries.
- Arthritis.
- Neck pain.

AD-206

Size	Inches	Cm
Universal	3.0-4.5	7.50-11.25

*Measure distance between edge of sternum & lower jaw with neck in the extension position

SHOULDER & CLAVICLE SUPPORT

AD-302

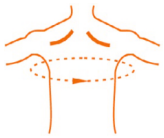

Elastic Shoulder Immobilizer

Our Elastic Shoulder Immobilizer is made from breathable and moisture transporting weaving fabric.

Indications:

- Shoulder dislocation.
- Post-surgical immobilization.
- Shoulder joint Pain.
- Forearm pain.
- Shoulder sprain.

Size	Inches	Cm
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-145

*Measure circumference around the chest below underarms

AD-303

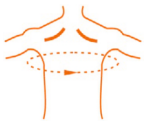

Universal shoulder Immobilizer

Our Universal Shoulder Immobilizer comes in a flexible size to support shoulder immobilization.

Indications:

- Shoulder dislocation.
- Post-surgical immobilization.
- Shoulder joint Pain.
- Forearm pain.
- Shoulder sprain.

Size	Inches	Cm
CH	Below 26	Below 65
Universal	26-40	65-100
Special	40-52	100-130

*Measure circumference around the chest below underarms

AD-304

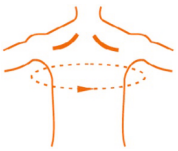

Clavicle Brace

Eight-shaped band design of Clavicle Brace is cushioned from soft polyurethane foam padding.

Indications:

- Clavicle fracture.
- Clavicle strain.
- Clavicle trauma.
- Poor posture problems.

Size	Inches	Cm
CH	22-28	56-71
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	132-147

*Measure circumference around the chest below underarms

AD-307

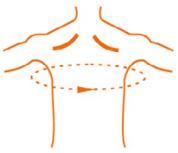

Clavicle Brace with Buckle

Eight-shaped Band Design of Clavicle Brace is Cushioned From Moisture Wicking Foam Fabric Padding.

Indications:

- Clavicle fracture.
- Clavicle strain.
- Clavicle trauma.
- Poor posture problems.

Size	Inches	Cm
CH	22-28	56-71
S	28-34	70-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130

*Measure circumference around the chest below underarms

ARM & ELBOW SUPPORT

AD-301

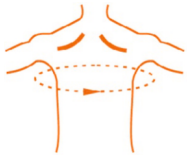

Pouch Arm Sling (Tropical)

Our Pouch Arm Sling provides comfortable support to the wrist and arm with an adjustable strap with a buckle for proper immobilization.

Indications:

- Arm fracture.
- Wrist fracture.
- Arm & Wrist sprains.
- Arm/Shoulder immobilization.
- Post-surgery/Post-cast.

Size	Inches	Cm
CH	22-28	56-71
S	28-34	71-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-147

*Measure circumference around the chest below underarms

AD-306

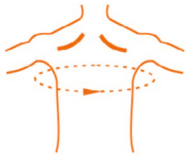

Pouch Arm Sling (Baggy)

Our baggy Pouch Arm Sling provides light-weight support to the wrist and arm through a thumb cradle, and an adjustable strap with a buckle for proper immobilization.

Indications:

- Arm Fracture.
- Wrist Fracture.
- Arm & Wrist Sprains.
- Arm/Shoulder immobilization.
- Post-surgery/Post-cast rehabilitation.

Size	Inches	Cm
CH	22-28	56-71
S	28-34	71-85
M	34-40	85-100
L	40-46	100-115
XL	46-52	115-130
XXL	52-58	130-147

*Measure circumference around the chest below underarms

AD-504

Elbow Support (Plush Feel) NEW ARRIVAL

Our Elbow Support is made from a soft, elastic material. It provides compression and support for injured tendons.

Indications:

- Forearm/Elbow pain.
- Post Elbow
- Arthroscopy.
- Sports and workout stress.
- Post-cast rehabilitation.
- Postoperative weakness.
- Arthritis / Bursitis.

Size	Inches	Cm
S	7-10	18-25
M	10-12	25-30
L	12-14	30-35
XL	14-16	35-40

*Measure circumference around the elbow in extended position

AD-510

Elbow Support With Strap (Plush Feel) NEW ARRIVAL

The elbow supports with straps are an effective solution for managing elbow pain and instability. It helps to compress and stabilize the elbow joint to reduce pain and inflammation. It is specially designed to provide relief and support for conditions like tennis elbow, golfer's elbow, bursitis, and tendinitis.

Indications:

- Tennis elbow (lateral epicondylitis)
- Golfer's elbow (medial epicondylitis)
- Elbow bursitis and arthritis
- Acute elbow pain
- Strained elbow muscles

Size	Inches	Cm
S	7-10	18-25
M	10-12	25-30
L	12-14	30-35
XL	14-16	35-40

*Measure circumference around the elbow in extended position

AD-503

Tennis Elbow Support

Our Tennis Elbow support has adjustable straps and a reverse fastener for a strong grip and custom compression.

Indications:

- Tennis/Golf Elbow.
- Tendonitis.
- Swelling.

Size	Inches	Cm
S	7-10	18-25
M	10-12	25-30
L	12-14	30-35
XL	14-16	35-40

*Measure circumference around the elbow in extended position

AD-716

Arm Immobilizer

An arm immobilizer is a useful medical device that can be used to support the healing off various arm injuries or surgeries. It can help to reduce pain and swelling. Prevent further injury, restrict the movement off the arm.

Size	Inches	Cm
Universal	12.8-7.87	20.0-32.5

*Measure circumference around the elbow in extended position

Indications:

- Fractures, Dislocations, and Soft Tissues injuries to Muscles, Ligaments, or Tendons
- Post-operative recovery of Arm
- Restrict the movement of Arm
- Immobilize the Elbow joint

AD-308

COLLAR & CUFF (FOAM BASED ARM SLING)

NEW ARRIVAL

A collar-and-cuff sling is a simple upper-limb support used to suspend the arm, reduce pain, and allow easier inspection after injury. It is most often used for stable fractures and some shoulder injuries, but its less common value is in situations where a clinician wants light support rather than rigid immobilization.

Size Universal

Indications:

- After Surgery
- Following Trauma
- For Shoulder or Clavicle Injuries
- Arm And Wrist Sprain
- Immobilization of the Arm After an Injury

WRIST & FOREARM SUPPORT

AD-501

Wrist Brace

Designed with adjustable straps, moisture-wicking fabric and durable nylon reinforcement.

Indications:

- Sprains and strains.
- Mild Osteoarthritis.
- Swelling & inflammation.
- Prophylaxis for exercise and sports.

Size	Inches	Cm
S	4.9-6.1	12.5-15.5
M	6.1-7.3	15.5-18.5
L	7.3-8.5	18.5-21.5

*Measure circumference evenly around wrist joint

AD-502

Wrist Brace with Thumb Support

Designed with adjustable wrap-around straps, moisture-wicking fabric and durable nylon reinforcement.

Indications:

- Sprains and strains .
- Mild Osteoarthritis.
- Swelling & inflammation.
- Tendonitis.

Size	Inches	Cm
Universal	5.0-9.5	12.5-23.80

*Measure circumference evenly around wrist joint

AD-505

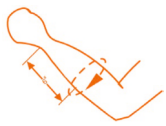

Wrist and Forearm Splint (Right/Left)

Our Wrist & Forearm Splint is made of lasting nylon sleeve supported from within with pliable aluminum, restricts wrist movement, but allows the full extent of motion to the fingers and thumb.

Indications:

- Post-cast management.
- Post-surgical protection and rehabilitation.
- Conservative management of Kienbock's disease.
- Rheumatic disease of the wrist.
- Arthritis hand positioning.

Size	Inches	Cm
S	7.2-8.5	18.3-21.6
M	8.5-9.8	21.6-24.9
L	9.8-11.1	24.9-28.2
XL	11.1-12.4	28.2-31.5

*Measure circumference at a distance 6" from the wrist along the arm

AD-506

Elastic Wrist Splint (Right/Left)

Our athletic-inspired elastic splint is a lightweight wrist support with double straps and anatomical design for rigid immobilization, while maintaining the wrist in a functional position.

Indications:

- Carpal Tunnel Syndrome.
- Post-surgery.
- Post-cast management.
- Wrist sprains and strains.
- Tendonitis.

Size	Inches	Cm
S	4.9-6.1	12.5-15.5
M	6.1-7.3	15.5-18.5
L	7.3-8.5	18.5-21.5
XL	8.5-9.7	21.5-24.5

*Measure circumference at a distance 6" from the wrist along the arm

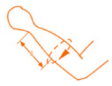

AD-507

Forearm Splint

Our Forearm Splint is made of lasting nylon sleeve supported from within with pliable aluminum, restricts wrist movement, but allows the full extent of motion to the fingers and thumb.

Size	Inches	Cm
Universal	7.5-10.50	19-26

*Measure distance from wrist to elbow

Indications:

- Post-cast/Post-surgery protection and rehabilitation.
- Conservative management of Kienbock's disease.
- Rheumatic disease of the wrist.
- Arthritic hand positioning.

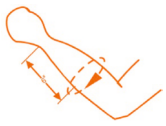

AD-512

Wrist Splint With Thumb Abduction

NEW ARRIVAL

It is a comprehensive solution for musculoskeletal conditions and injuries in orthopaedic care. Perfectly designed as a wrist immobilizer, it provides solid assistance in the healing process for wrist and thumb injuries. This brace is especially useful in post-surgical rehabilitation, ensuring enhanced immobilization due to its long length.

Size	Inches	Cm
S	7.2-8.5	18.3-21.6
M	8.5-9.8	21.6-24.9
L	9.8-11.1	24.9-28.2
XL	11.1-12.4	28.2-31.5

*Measure circumference at a distance 6'' from the wrist along the arm

Indications:

- Thumb Sprain or Strain
- Post-traumatic Thumb Injuries
- Ligament Injuries of the thumb and wrist
- Post-operative Immobilization of Thumb & Wrist

AD-511

Restrainer

NEW ARRIVAL

The Restrainer is used to limit, control, support, or prevent unwanted movement of a person, body part, animal, or object for safety, protection, treatment, or stabilization purposes.

Size	Inches	Cm
Universal	5-12	12.7-30.5

*Measure the circumference around wrist and ankle joint

Indications:

- Prevention of Self-Harm
- Protection of Medical Interventions
- Facilitation of Medical Procedures
- Manage acute behavioural emergencies

FINGER SUPPORT

AD-601

Finger Cot Splint

Made of aluminum exterior frame for protective and perfect immobilization and soft foam inner liner for comfort.

Indications:

- Finger injury.
- Post finger Fracture.
- Postoperative care.
- Sprains and bruises of fingers.

Size	Inches	Cm
S	< 2	< 5
M	2-3	5-7.5
L	3-4	7.5-10

*Length of fingers

AD-604

Finger Extension Splint

Made of aluminum exterior frame for protective and perfect immobilization and soft foam inner liner for comfort.

Indications:

- Metacarpal injury.
- Fracture.
- Post-surgery.
- Sprains and bruises of fingers.

Size	Inches	Cm
S	< 2	< 5
M	2-3	5-7.5
L	3-4	7.5-10

*Length of fingers

AD-602

Frog Splint

Made of light-weight but rigid aluminum frame to rehabilitate and align the post ligamentary damage of the Interphalangeal joints.

Indications:

- Interphalangeal (IP) joint Injury.
- Finger Injury.
- Finger sprain.
- Postoperative care.

Size	Inches	Cm
S	< 2	< 5
M	2-3	5-7.5
L	3-4	7.5-10

*Length of fingers

AD-605

Mallet Finger Splint

Ethafoam liner for cushioning and also suitable for post-operative care.

Indications:

- Bruising of the dorsum of the DIPJ.
- Mallet finger deformity.
- May help manage the extensor tendon injury.
- Minor fractures of the distal phalanges.
- Distal phalange postfracture care.
- Distal interphalangeal (DIP) joint conditions.
- Swollen fingertip.
- Post-surgical care.

Size	Inches	Cm
Universal	< 2-4	< 5-10

*Length of fingers

AD-603

Thumb Spica Splint

A flexible and comfortable splint made of malleable material for easy application and removal.

Size	Inches	Cm
Universal	5-9.5	12.5-23.8

*Measure circumference evenly around wrist joint

Indications:

- Bursitis.
- Sprains of thumb.
- Avulsion fractures of the thumb.
- Soft tissue injuries.
- Thumb pain symptoms.
- CMC & MCP joint conditions.

AD-709

Garter Splint

Garter splint is more adjustable than complete tights, allowing for a better fit and accommodating various fingers. It is more comfortable than traditional tights, especially for those with sensitive skin or those who experience discomfort from synthetic materials.

Size	Inches	Cm
Universal	4.0-5.0	10-12.5

*Measure circumference evenly around finger joint

Indication

- Support and immobilization
- Control of pain
- Postoperative immobilization
- Prevention of further injury

TRACTION KITS

AD-803

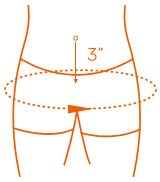

Pelvic Traction Kit (with Weight Bag)

A versatile traction kit that can be used in all kinds of tractions and on all kinds of beds.

Indications:

- Lumbar spondylitis.
- Lower back pain.
- Postural fatigue.
- Postural deformities.
- Vertebral fractures.

Size	Inches	Cm
S	32-38	80-90
M	38-44	95-110
L	44-50	110-125
XL	50-56	125-140

*Measure circumference 3" below navel

AD-803W

Traction Weight Bag

The Weight Bag applies uniform and controlled traction to the lumbar sacral, and thoracic areas of the vertebral column.

Indications:

- Convenient home use
- Controlled continuous traction
- Easy removal and application

Weight Capacity	
Liquid	10 Ltr.
Solid	12 Kg.

AD-804

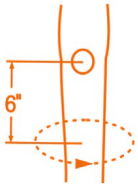

Leg Traction Brace

Four sets of nylon based buckle closure with an additional locking mechanism to ensure a secure fit.

Indications:

- Hip/Sacral pain.
- Shaft fractures of the femur.
- Traction to relieve pain in the lower back
- When pelvic traction is not possible or not desired.

Size	Inches	Cm
S	8.5-11.0	21.50-27.90
M	11.0-13.50	27.90-34.20
L	13.5-16.0	34.20-40.60
XL	16.0-18.50	40.60-46.90

*Measure circumference around calf approx 6" below knee

AD-802

Cervical Traction Kit + Weight Bag (Sleeping)

The Cervical Traction Kit (sleeping Type) is designed to provide traction to the cervical and upper dorsal vertebrae, relieving pressure by stretching the musculature and connective tissue components of the cervical spine. It expands the intervertebral joint space and can be used in a sleeping posture, providing the convenience of traction therapy at home.

Indications:

- Cervical injuries
- Cervical disc herniation
- Cervical radiculopathy
- Cervical muscle strain

Size	Universal

AD-719

Cervical Traction Kit + Weight Bag (Sitting)

The Cervical Traction Kit (Sitting Type) is used to relieve pressure on muscle, nerve tissue, and minor fractures of the cervical spine. It works by stretching the cervical spine's musculature and connective tissue components, expanding the intervertebral joint space, and reducing pressure on the cervical spine.

Indications:

- Cervical Disc Herniation
- Cervical Radiculopathy
- Cervical Muscle Strain
- Neck Pain And Stiffness

Size	Universal

AD-805

Skin Traction Set (Puf Liner)

Our skin traction kit is made with foam liner designed to ensure there is no friction damage to the skin and no slippage during traction.

Indications:

- Need For Indirect Traction to Extremities
- Pain & Spasms

Size	Inches	Cm
Child	< 12	< 30
Adult	> 12	> 30

AD-806

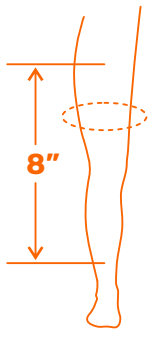

Thomas Splint Orthopaedic Traction NEW ARRIVAL

The ADORE Thomas splint is used to immobilize and support lower-limb fractures, especially fractures of the femur and tibia, by keeping the leg aligned and reducing movement during treatment and transport. It is also used in trauma care to lower pain, reduce further soft-tissue injury, and help prevent complications while the fracture heals; historically, it was also used for deformities of the lower limb and for knee tuberculosis.

Indications:

- Provide stabilization and immobilize fractures of the thigh bone.
- Stabilizes fractures to reduce pain and muscle spasms.
- Acts as a vital tool for safely immobilizing lower limb injuries.
- Maintain proper bone alignment to prevent further displacement.
- Manage inflammatory conditions or infections of the knee joint.
- Manage inflammatory conditions or infections of the knee joint.

Size	Ring Internal Diameter (cm)	Overall Splint Length (cm)	Suggested Thigh Circumference (cm)
S	9	55	30–45
M	11	65	40–55
L	13	75	50–65
XL	15	85	60–75

*Measure the thigh circumference at the level where the ring will sit.

THIGH, KNEE, ANKLE & CALF SUPPORT

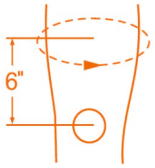

AD-419

Knee Cap *(Plush Feel)* NEW ARRIVAL

Knee Cap ***Plush Feel*** incorporates advanced 3D knitting technology with targeted compression zones, providing enhanced stability and support. It is constructed from specialised breathable and durable materials that ensure comfort during prolonged use. This knee cap is suitable not only for general knee pain relief but also for managing patellar maltracking, mild to moderate knee instability, post-surgical rehabilitation, and chronic tendonitis. Additionally, it offers preventative support for athletes engaged in high-impact activities.

Size	Inches	Cm
S	14.8-17.2	37-43
M	17.2-19.6	43-49
L	19.6-22.0	49-55
XL	22.0-24.4	55-61
XXL	24.4-26.8	61-67
XXXL	26.8-29.2	67-73

*Measure circumference around mid thigh approx 6" above knee

Indications:

- Patellar malalignment or tracking disorders, specifically indicated for patellar maltracking.
- Mild to moderate knee instability due to ligament laxity.
- Support during post-surgical rehabilitation to aid knee function and reduce swelling.
- Alleviation of inflammation in periarticular soft tissues through targeted compression.
- Preventative support during high-impact sports and physical activities, ideal for athletes.
- Improvement of joint mobility and reduction of pain through compression therapy.

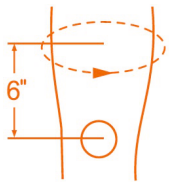

AD-420

Knee Cap With Strap *(Plush Feel)* NEW ARRIVAL

Knee Cap ***Plush Feel*** with a strap to provide support and relief from knee pain, particularly for conditions such as patella tendonitis, patella instability, and runner's knee. The strap goes around the knee, below the kneecap, and over the patellar tendon to deliver concerted pressure that helps relieve tension and stabilize the kneecap. This support helps alleviate pain and discomfort during physical activities like running, jumping, and sports, as well as during everyday activities like walking.

Size	Inches	Cm
S	14.8-17.2	37-43
M	17.2-19.6	43-49
L	19.6-22.0	49-55
XL	22.0-24.4	55-61
XXL	24.4-26.8	61-67

*Measure circumference around mid thigh approx 6" above knee

Indications:

- Patella tendonitis
- Patella instability
- Knee degeneration
- Knee pain during physical activity
- Jumper's knee

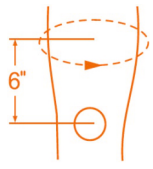

AD-416

Thigh Support

The weaving method for our Thigh Support provides seamless stretching stockings with a tapered top to bottom design to hold in a natural shape.

Size	Inches	Cm
S	14.8-17.2	37-43
M	17.2-19.6	43-49
L	19.6-22	49-55
XL	22-24.4	55-61

*Measure circumference around mid thigh approx 6" above knee

Indications:

- Hamstring strain.
- Muscle spasms or cramping.
- Arthritis.
- Stiffness or trauma.
- Pain & inflammation.
- Sports Injury.

Knee Cap

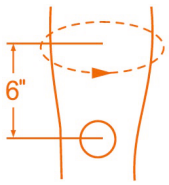

Anatomically tapered form and spandex-based fabric ensure effective compression with stretchability and comfort.

Indications:

- Arthritic pain.
- Osteoarthritis of the knee.
- Ligaments or tendon injury.
- Quad cramps.
- Knee sprain.
- Weak knees

AD-403

AD-414

Patellar Support

Provides enhanced kinesthesia for promoting blood circulation and healing with customized compression and padding.

Indications:

- Patellofemoral pain syndrome.
- Patellar tendonitis and arthritis.
- Osgood-Schlatter disease.
- Patellar dislocation and subluxation.
- Mild instabilities of the knee joint.

Size	Inches	Cm
Universal	12-20	30-50

*Measure circumference around the knee

AD-406

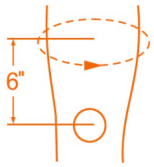

Knee Immobilizer (14")

Hook & loop straps with loop closures and extra strap at the patellar region for proper fitting along with anatomically shaped posterior and lateral splints provide precise immobilization of the knee.

Indications:

- Ligament injuries.
- Tibial plateau fractures.
- Osteochondral injury.
- Patellar tendon injury.
- Acute sprains/strains of the knee.
- Post-cast care.
- Post/Preoperative care.

*Measure circumference around mid thigh approx 6" above knee

AD-411

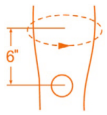

R.O.M.Knee Brace (22")

Our R.O.M knee brace provides locking at any angle or motion between any two angles with intervals of 15 degrees.

Indications:

- Arthritis/Osteoarthritis.
- Hamstring Injury.
- Knee ligament instability.
- Knee sprain.
- Lateral Collateral Swelling & inflammation.
- Total knee replacement.

Size	Inches	Cm
Universal	14.8-22	37-55

*Measure circumference around mid thigh approx 6" above knee

AD-417

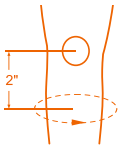

Calf Support

Hypoallergenic elastic fabric from unique fibres blended with cotton prevents skin irritations and perfect compression.

Indications:

- Weak or injured calves, fatigued legs, and stressed muscles.
- Aching calf muscles.
- Cramps and painful calf conditions.
- Muscle strain.

Size	Inches	Cm
S	9.8-11.3	25-29
M	11.3-12.8	29-33
L	12.8-14.3	33-36

*Measure circumference approx 2" below knee

AD-413

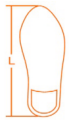

Foot Drop Splint (Right/Left)

Useful for patients under critical care of foot injury. Lightweight, robust and flexible polypropylene shell in one piece.

Indications:

- Muscle weakness due to stroke, spinal cord injury, muscular dystrophy, cerebral paralysis, poliomyelitis, multiple sclerosis and peripheral neuropathy.
- Recovery from surgical or neurological treatments for foot drop.
- Muscle tightening and runner's cramp.
- Plantar fasciitis.
- Achilles tendonitis.

AD-714

Prosthetic Compression Stocking - Mid Thigh

Prosthetic compression stockings prevent edema, leg discomfort, tired aching, deep vein thrombosis, and mild swelling. They work by applying pressure to the legs, which helps to improve blood flow and prevent blood from pooling and clotting.

Indications:

- Prevention of deep vein thrombosis
- Venous disorders such as edema, phlebitis, and thrombosis
- Reduction of pain and swelling in the legs
- Improvement of residual limb blood circulation

Anti Embolism Stockings

NEW ARRIVAL

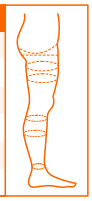

→Mid Thigh (Open/Closed Toe)
→Below Knee (Open/Closed Toe)

Anti-Embolism Stockings provide graduated compression to support venous circulation and help reduce the risk of DVT in patients with reduced mobility. They are commonly used during hospitalisation, post-operative recovery, prolonged bed rest, and limited mobility. They offer comfort, flexibility, and easy patient care.

Indications:

- Post-surgical recovery
- Temporary mobility restriction
- Extended bed rest
- Hospitalised patients at risk of DVT/VTE
- Recovery with limited mobility
- Clinically indicated mechanical VTE prophylaxis

Size	Ankle (cm)	Calf (cm)	Thigh (cm)
